Former Winnipegger Wins Sociology Honor

ST. LOUIS — A young sociology professor at the University of California — Erving Goffman — is the winner of the MacIver award of the American Sociological Association. The award is an annual one but is given only when an outstanding book has been written. It includes a \$500 cash prize plus an invitation to lecture before a selected group of sociologists during the coming year.

Professor Goffman is the son of Mrs. Max Goffman of Los Angeles, formerly of Winnipeg.
